

The de Ferrers Trust

The de Ferrers Trust Board Scheme of Delegation

Introduction

A multi-academy trust's (MAT) board of trustees is accountable in law for all major decisions about their academies. However, this does not mean that the board is required to carry out all the trust's governance functions and many can and should be delegated, including to the Chief Executive Officer (CEO), the board's committees, and to local governing bodies (LGBs).

A scheme of delegation (SoD) is the key document defining the lines of responsibility and accountability in a MAT. It should be a simple yet systematic way of ensuring that the members, trustees, board committees, local governing bodies, executive leadership and academy principals are all clear about their roles and responsibilities. This overarching SoD for all decision making in the trust should not be confused with the written scheme of delegation of financial powers referred to in the Academies Financial Handbook.

The de Ferrers Trust is a charitable company limited by guarantee and as such, we are required to comply with Charity Law and Company Law.

The trust is one legal entity with one set of articles of association that governs each academy within the trust. The delegated autonomy for individual academies is aligned with the need for the trust to fulfil its corporate responsibilities and accountabilities to the Department for Education, the Education and Skills Funding Agency, Charity Commission, HMRC, Companies House as well as to our pupils, students and their parents, carers and the wider

The status of a scheme of delegation

Some governing bodies of schools maintained by the local authority join MATs assuming that they will continue to function as they did previously. However, even if on joining they are known as the local governing body, this body will in fact be a committee appointed by the board, and the board has the power to appoint and remove committees at any time, be it a board committee or a local governing body.

LGB functions are likely to be different to those of the maintained school governing body, and will be reduced. A detailed yet clear SoD will prevent confusion from arising before any misunderstanding develops and leads to a loss of trust and damaged working relationships.

Review and adapt

The SoD should be reviewed annually, with changes made as the context changes, if necessary each year. This is not a failure, but recognition of the need to be responsive to changing circumstances and to adapt accordingly. It is, however, important to ensure that all involved in governance are made aware of any changes and what these mean in practice.

An effective scheme of delegation will:

Promote a culture of honesty and accountability

Ensure the executive leadership is clear about which decisions the trust board remain in control of

Identify responsibility for the appointment and performance management of the CEO/executive principal and academy principals

Ensure that the role of the executive leadership is fully understood throughout the MAT

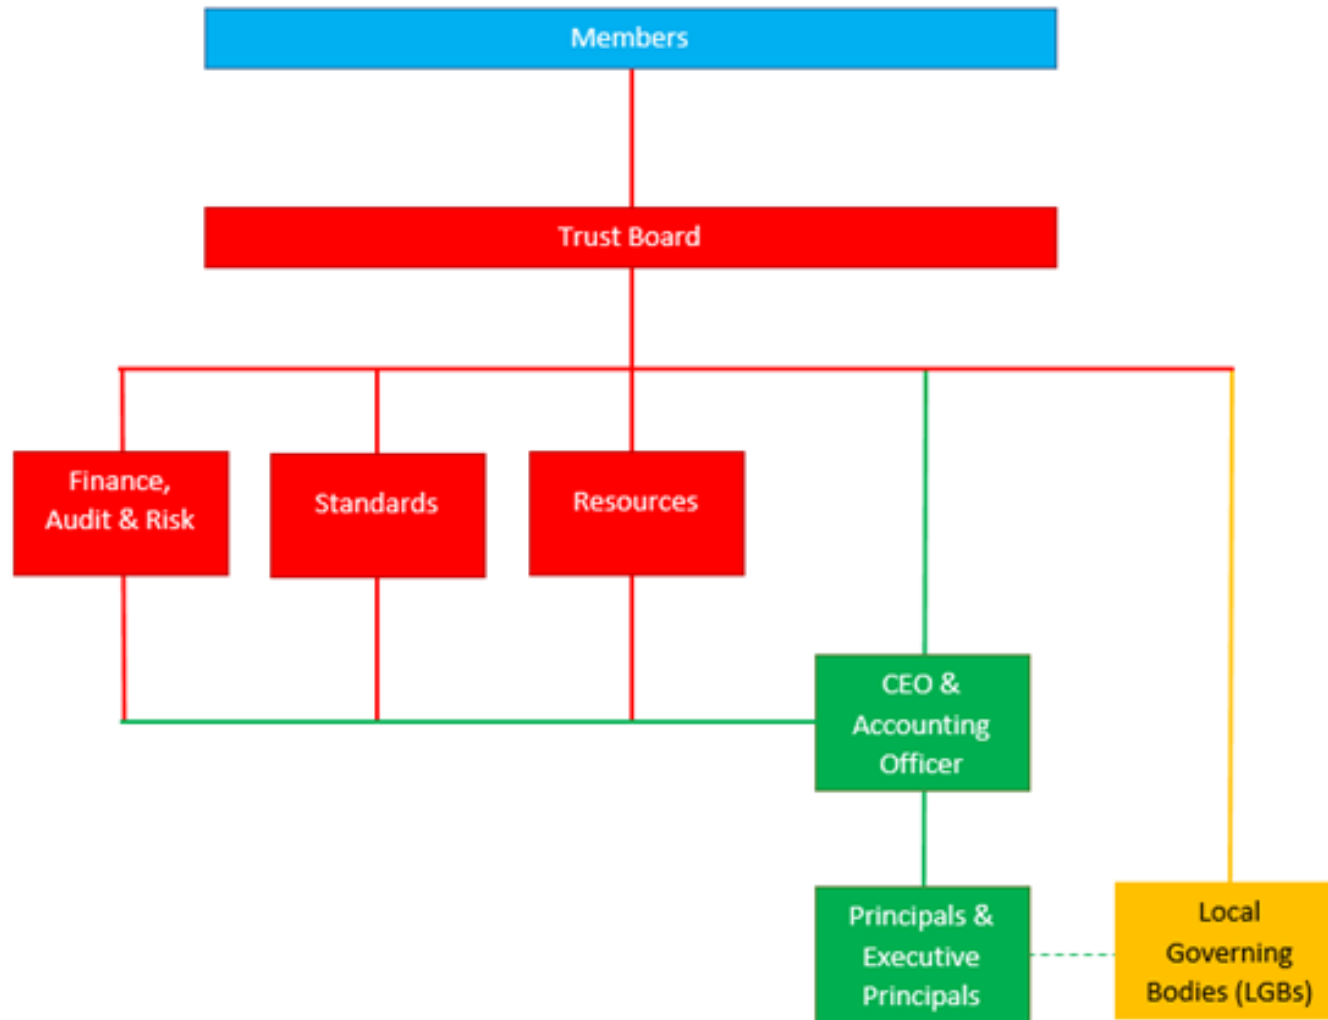

Identify responsibility for policy and practice in each academy

Identify responsibility for oversight of educational performance in each academy

Identify responsibility for oversight of each academy's budget

Identify responsibility for assessment of risk in each academy

Governance structures and lines of accountability

The board of trustees is responsible for the three core governance functions (see 'The role of the trustees' below for details).

The board of trustees appoints the CEO to whom it delegates responsibility for delivery of its vision and strategy, and it will hold the CEO to account for the conduct and performance of the trust, including the performance of the academies within the trust, and for its financial management. In turn, the CEO line manages the other senior executives and the academies' principals, setting their targets and performance managing them.

The board constitutes committees for finance, audit and risk, for resources and for standards; these look in detail at resources and progress and attainment across the trust. As board committees, at least three trustees must sit on each.

The board delegates some of its school level monitoring and scrutinising functions to LGBs, and uses these committees to promote stakeholder engagement and as a point of consultation and representation. Trustees do not need to sit on LGBs, and so lines of communication to the board of trustees must be clearly established.

As the principals are line managed by the CEO, the LGB no longer carries out the governance function of holding the headteacher to account. It is usual for the CEO to see input from the chair of the LGB when undertaking academy principals' performance management. However LGB's must be confident that the trust's performance management systems are working well, and if not, how they can make the trust aware of their concerns. This arrangement will also affect the local governing body's role in Ofsted inspections, though inspectors usually ask to meet LGB.

Roles and Responsibilities

The role of the members

The members of the trust are guardians of the governance of the trust and as such have a different status to trustees. Originally they will have been the signatories to the memorandum of association and will have agreed the trust's first articles of association (the legal document which outlines the governance structure and how the trust will operate). The articles of association also describe how members are recruited and replaced, and how many of the trustees the members can appoint to the trust board (eight of eleven). The members appoint trustees to ensure that the trust's charitable object is carried out and so must be able to remove trustees if they fail to fulfil this responsibility. Accordingly, the trust board submits an annual report on the performance of the trust to the members. Members are also responsible for approving any amendments made to the trust's articles of association.

There must be at least three members, although the DfE prefer at least five, and while members are permitted to be appointed as trustees, in order to retain a degree of separation of powers between the members and the trust board, and in line with DfE expectations, not all members should be trustees and fewer than half of trustees should be members. Members are not permitted to be employees of the academy trust. The de Ferrers Trust has four members.

The role of trustees

The MAT is a charitable company and so trustees are both charity trustees (within the terms of section 177(1) of the Charities Act 2011) and company directors. Because trustees are bound by both charity and company law, the terms 'trustees' and 'directors' are often used interchangeably. The de Ferrers Trust, as advised by the National Governance Association, uses the term trustee as it avoids the possible confusion caused when executive leaders are called directors but are neither company directors nor trustees.

The trustees are responsible for the general control and management of the administration of the trust, and in accordance with the provisions set out in the memorandum and articles of association and its funding agreement, it is legally responsible and accountable for all statutory functions, for the performance of all schools within the trust, and must approve a written scheme of delegation of financial powers that maintains robust internal control arrangements. In addition it must carry out the three core governance functions:

Ensure clarity of vision, ethos and strategic direction

Hold the executive to account for the educational performance of the trust's schools and their pupils, and the performance management of staff

Oversee the financial performance of the trust and make sure its money is well spent

There are currently eleven trustee positions on the board. Eight of these are appointed by members. One Trustee shall be appointed by CECET (Church of England Central Education Trust) and the two remaining Trustees can be co-opted. Trustees are appointed purely on a skills basis. The CEO shall not, nor shall any employee of the trust, be a trustee. The board must meet at least three times a year. The board of trustees has the right to review and adapt its governance structure at any time which includes removing delegation. Should the trustees decide to formally work with diocesan schools, they will take steps to liaise appropriately with those responsible for the governance of those schools.

The trust board should communicate effectively with its board committees and local governing bodies. There is a standing agenda item on every board agenda for board committees to provide a report and recommendations for action following their meetings. Communication between the trust board and LGBs will be a standing item on all LGB and trust board agendas to allow matters to be escalated for the board's attention should the LGB be unable to resolve the issue at a local level. The board should respond to LGBs in writing. Briefings will also be held with all clerks and chairs on a regular basis to provide an additional opportunity for information sharing. The briefings provide the chance to have issues raised which may have influence across the broader family.

The board has delegated some responsibility to the members of the Trust Leadership Team (TLT) and will invite such persons to their meetings as and when required.

The role of trust board committees

The trustees may establish committees to carry out some of its governance functions which may include making decisions, although any decisions made will be deemed decisions of the trust board. The membership (there must be at least three trustees) and responsibilities of board committees are set out in the committee's terms of reference. It is usual for the trust board to appoint board committee chairs and committee members according to their skills.

The Academies Financial Handbook 2018 makes it clear that the board of trustees 'should have a finance committee to which the board delegates financial scrutiny and oversight'. In trusts with income above a certain level, there must also be a separate audit committee. At the time of adoption of this SoD, The de Ferrers Trust does not meet this threshold.

The de Ferrers Trust committees are: Finance and Audit and Risk; Resources; and Standards

The role of the chief executive officer (CEO)

The CEO has the delegated responsibility for the operation of the trust including the performance of the trust's academies and so the CEO performance manages the academy principals. This usually involves the CEO seeking the views of the chair of the LGB.

The CEO is the accounting officer so has overall responsibility for the operation of the academy trust's financial responsibilities and must ensure that the organisation is run with financial effectiveness and stability; avoiding waste and securing value for money.

The CEO leads the executive management team of the academy trust. The CEO will delegate executive management functions to the executive management team and is accountable to the trust board for the performance of the executive management team.

The role of local governing bodies

The trustees may establish local governing bodies to carry out some of its school level governance functions, although as trustees are not required to sit on LGBs, decision making is limited. The LGB undertakes to uphold the trust's vision, policies and priorities. They will seek assurances on behalf of the board from principals and other members of staff regarding the academic performance and quality of care and provision for the pupils in the relevant academy. The trustees will appoint the chair, and attempt to ensure that two parents are elected to the LGB.

Typically, delegated functions may include:

- a) Building an understanding of how the school is led and managed
- b) Monitoring whether the school is:
 - Working within agreed policies
 - Is meeting the agreed targets
 - Managing its finances well, particularly with regards to extra funding for pupils
- c) Engaging with stakeholders

Within the table that follows, for ease of reference, the role of the LGB is highlighted in blue.

The role of academy principal

The academy principal is responsible for the day to day management of an academy and is managed by the chief executive or executive principal but reports to the LGB on matters which have been delegated to it, which may include an element of monitoring and scrutiny of the school's management processes.

Policies

There are a number of cross-trust policies in place. There is no requirement for LGBs to approve these. They do, however, need to be aware of them and satisfy themselves that they are being implemented.

It is the intention of the trust that most policies will apply to all of its schools. This is still in development. All cross-trust policies are accessible on the trust's website.

All policies should be approved in line with the policy tracker approved by the trust board.

The trust reserves the right to make variations to the Scheme of Delegation in relation to individual schools, subject to their performance and circumstances.

All amendments to the scheme of delegation can be found at the back of this document.
